In our rambles through the country, we came upon the place selected for the building of a new Baptist Church, which is to be erected about one mile east of Denver, near the residence of Mr. W. D. Garrison. We think a Baptist Church is much needed in that section, and hope soon to hear of its completion. The school at Denver is taught by Miss Pearl Crosby, who, we understand, fills the position satisfactorily, and is much liked by patrons and pupils.

We are sorry to learn of the decision of the Township Board of Trustees, in regard to the school at Iola. Matters are in a bad state when prejudice rules to the extent that it has done in the case of that about What right have the Trustees to school. What right have the Trustees to school. What right have the Trustees to deprive children of their share of public money, simply because "they have decided not to locate any more schools?" The patrons there pay taxes and should have their share of the public funds, and if justice were shown they would have it but sless that is an element which, it but alas! that is an element which, it seems, has disappeared from the composition of some men, if indeed, it ever existed therein. The school at Iola is flourishing under the tutorship of Miss Warren; the patrons are highly pleased with her work, and were the school located, we believe the enrollment would amount to forty pupils in a short time.

Nothing of unusual importance has taken place since last you heard from us, except a few people have, I suppose, be-come tired of their present situation and way of living, so have taken unto them-selves a lifetime companion—two hearts made to beat as one, eh? But, Christmas (the harvest) is now over and some of us are still left to fight the battle of life alone. So let us begin the new year with new energy and new zeal, and perhaps ere another Christmas shall have passed away, we can say that we, too, are "in it." Do let us old maids and bach's (those of us who want to marry) "turn over a new leaf" and see if we can't get off yet. It still rains, but the farmers are going ahead and preparing their land for another crop. The farmers of this section say that crop. The farmers of this section say that they intend to plant more corn this year than they have planted heretofore. This is a attends to his own affairs, and thinks he good plan and we hope the farmers of docs well if he don't make more than a other Counties will do likewise, for if we half dozen mistakes in the year in his we are alright and an independent people.

If we don't make what we need we are at the mercy of the money holders.

The health of this community is good at present, except with our clever miller, who has been complaining with the grinne. who has been complaining with the grippe, but we think the cause is from sitting too

but we think the cause is from sitting too close to a cold stove.

Mr. Baylis Bagwell, of Seneca, visited friends and relatives in this community and Townville Saturday and Sunday last.

Well. Mr. Editor, we notice that Mr. Holcombe has removed the shelter that he built over the public road in Townville. He said he would not move it, but when the test came ho proceeded to move it just like some one that was obliged to do it. I can't say whether he intends to cover the shelter with the same boards that came off of it when he gets it rebuilt that came off of it when he gets it rebuilt or not, but there is one thing certain, if he does use them he will have to use some hydraulic power to straighten them so he thanks of the people for the good they thanks of the people for the good they can get them to lay still until he can nail are trying to do for us. We could do that them to the pine poles, for they are so without any more cost to us than these crooked that when he tore them off and aforesaid preambles and resolutions. My threw them on the ground they would not lie still unless weighted down at both the least in his ability to steer the old ship ends. So take warning from this, Mr. of State to a safe and healthy landing, and Holcombe, and don't undertake to shelter if he does not carry us back to the pros-

perity that we enjoyed during his former administration it will not be his fault; it the public road unless you have made arrangements with the proper authorities.

We are well blessed with schools in will be those everlasting croakers and this section. We have one at Pine Groye obronic grumblers. There is the Atlanta in charge of Miss Jennie Shirley, and one Constitution that is as bad, or worse, than at Cross Roads in charge of Miss Ida Russell. Both teachers have good schools, and it seems that their pupils love them. We think that the Trustees and patrons stop their grumbling and put their shoul-der to the wheel and help the President did well in selecting such accomplished teachers, who are popular with everybody and who are loved by everybody. They are charming young ladies.

If this don't find its way to the waste and his Cabinet to pull through the tight place that the Republicans left the Govbasket, I will try to give you the news of our burg. SAM Bow. our burg.

Here we are again at our post, and will give you a few inklings. We enjoyed our trip very much. Old Georgia can't be beat for good things. She is full of hog and hominy from the Blue Ridge to the generating from the Blue Ridge to the country girls. coast, and, when it comes to pretty girls, she is there all the time. We will give you a description of the mines and the way it is carried on. If they are going to work a gravel bed the first step is to survey off a ditch to carry the water to the giants.

Before we proceed we will explain what a Constitution and Peoples Advocate, et al., giant is. It is an iron pipe with joints ten fect long, and they are tapering. The joints are fitted with collars, so they can be connected with one another. We saw the old paper read a paragraph, and then one that was three hundred yards long.

It was laid down a very steep bluff. The water was forced in the pipe by a race.

We Concervatives have as much interwater was forced in the pipe by a race.

Now suppose the pipe is connected with the race, a hundred feet high, and the water rushes through the pipe, one can readily understand what a pressure the stream attains when we tell them that it stream attains when we tell them that it covers out at a three links program. The change.

We Contervatives have as much interest in our National Government as any-body, but none in our State Government, except to pay taxes and aid Tillman's spies in enforcing the dispensary law.

Right here let me tell you something about mes out at a three inch nozzle. The law (if I am not a lawyer) that some of nozzle is fixed on a pivot and is guided by a lever. When the water comes out of that is this; I don't care how beneficial a the glant it has such force that large rocks law (or a Statute, as they are called,) are bursted into fragments. The gravel is would be to a people, you never can enwashed down into sluices, where the gold force it unless it has the sanction of a mais collected by mercury. If it is an ore bed that they are working, the process is the same, only the ore is washed down to a pounding mill, where it is put under the stamps and crushed into sand. We will try to describe the mill. There is a Baptists, or any other denomination, as to the mill and all the ore race that runs into the mill, and all the ore that is brought to the mill comes in this want. All of the Sheriffs, Constables, race. The water throws it under the stamps, which are large iron pestles oper-ated by machinery. They work up and down on a shaft, and the ore falls on an

His picture shows that he was a man of deep thought and broad views, while his face shows that he had a strong will power that was hard for his opponents to break. We wish there was more such men as Mr. Perry was.

Farmers Mutual Fire Association, Mr. EDITOR: Will you please allow me space in your columns to call atten-tion to a meeting of the Farmers' Mutual Fire Association for Anderson County, to be held in the Court House on Saturday, the 10th February, at 11 o'clock a. This call is made by the request of several gentlemen who are favorable to dissolving the Association, for reasons best known to themselves, and I, as the President of the Association for Anderson County, under Sub-Division VII, Sec. 9, of the Constitution am bound to call this Five of the Directors have asked for it.

Also, Sec. 10 has special claim on us just the fires that have occurred, the build-ings burned and amount of insurance, &c., which is absolutely necessary before tion of a wife, and he will make her happy.

Rev. D. H. Baker, of North Carolina, has located in this section. He is blind.

The writer overheard a couple talking. She said to him: "If I could not get to kiss as pretty fellow as you, I would quit the world." Oh, how I wish my name was Jim.

Mr. J. I. Crowther, of Autreville, has the best field of oats the writer has seen this year.

Our friend, W. P. Bell, has been very sick with the grip.

Prof. Stokes' school at the Institute is flourishing. Seventy-two pupils are engrolled,

The writer overheard a couple talking. So may it be.

Times are really getting hard. We heard a girl say the other day that her fellow has young grease to greate to the organization for this County which was perfected Cotober 2nd, 1993, by the adoption of the Charter Associatio

County. I desire to call special attention to Art. 7, of the By-Laws, as to the man-DO YOU WANT TO BUY A ner of withdrawing from the Association. It will be seen that no person can withdraw until all assessments have been paid, and thirty days from notice of withdrawal has expired. The same is

overrated when put into the Association.

Now, having said this much, and asking for special investigation of charter,
Constitution and By-Laws on the matters involved in our organization, I further ask in the event that we dissolve the present organization that we all east
